**SKILL FRACTURED IN TWO PLACES**  
**President Walker of Thermos Company Thrown From Auto**  
**Machine Upset on Curve Near Westerly—Supt. Visscher**  
**and W. R. Burrow of New York Only Slightly Hurt—**  
**President Walker Operated Upon in Providence Hospi-**  
**tal—Condition Reported Somewhat Improved.**

William B. Walker of New York,  
president of the American Thermos  
Bottle company of Norwich, was very  
seriously and perhaps fatally injured  
Wednesday afternoon in an automobile  
accident on the Boston turnpike near  
Westerly, R. I. With him were C. H.  
R. Visscher, superintendent of the  
Thermos factory, and William R.  
Burrows, of Hartford, N. J. They were  
on their way to Providence.

Walker was operating the automobile,  
and was making the sharp turn at  
the Elder Holman curve, was evidently  
traveling at too fast speed and as a  
result the auto skidded and turned on  
its side, badly wrecked.

Mr. Walker was pitched headfore-  
most over a stone wall and was ren-  
dered unconscious, the blood flowing  
from ugly cuts in the head. Messrs.  
Visscher and Burrows were not seri-  
ously injured and gave their immedi-  
ate attention to the care of Mr. Walker.

A telephone message from the Mary A.  
Morgan plant near the scene of the  
accident, brought Dr. Michael H.  
Scanlon from Westerly to the scene  
very shortly after the accident. It was  
at once determined that Mr. Walker's  
injuries were of a very serious na-  
ture and he was immediately trans-  
ported to the Rhode Island hospi-  
tal.

Mr. Walker's condition was consid-  
ered as very serious. Dr. Scanlon  
said all that was possible was being  
done for his improvement. He was  
taken on the 11 train for Providence  
and accompanied by Dr. Scanlon and  
Messrs. Visscher and Burrows, prior  
arrangements having been made for  
receiving him at the Rhode Island hospi-  
tal.

Visscher's back was strained  
somewhat when he received a slight cut  
in the wrist. Mr. Burrows was  
severely strained in the right shoulder  
and head, but he is recovering from  
the tip of his nose. He also re-  
ceived slight cuts in the forehead and  
chin. The automobile was towed to a  
garage near the scene of the accident.

An operation was performed at the  
hospital in the early evening and at  
10 o'clock the condition was some-  
what improved.

Miss Fay Walker, daughter of Mr.  
Walker, and her sister-in-law, who  
were with him at the time of the  
accident, hurriedly left New York  
and arrived in Providence about 10  
o'clock Wednesday evening.

President Walker was on his way  
from New York to Providence to  
visit the glass factory of the General  
Electric company at Providence with  
Mr. Visscher and Mr. Burrows, who  
is chief engineer of the General Elec-  
tric company of Hartford, N. J. The  
Thermos president had been here on  
business since Tuesday night.

At 2.30 o'clock this (Thursday)  
morning it was reported from the  
hospital that Mr. Walker was resting  
comfortably with a favorable chance  
of recovery.
